The screenshot shows a mobile app interface for Wynn. At the top, there's a header with the Wynn logo on the left and 'Wynn Encore' on the right. In the center of the header is a white voice icon (a microphone with sound waves) above a small upward-pointing arrow. A white curved arrow points from the right towards this voice icon. Below the header is a dark banner with the text 'BOOK YOUR STAY TODAY & SAVE' and a small icon of two crossed arrows. The main content area has a background image of a casino floor. It features a section titled 'WYNN INSIDER' with a 'JOIN NOW' button. Below this, there's a section with a group of people icon and the text '81 purchased in the last 2 days'. Another section shows a building image with the text 'BOOK YOUR STAY TODAY & SAVE' and 'FROM \$110 PER NIGHT'. Below that, there's a section with a group of people icon and the text '81 purchased in the last 2 days'. At the bottom, there's a navigation bar with five icons: a calendar, a suitcase, a plus sign, a tag, and a bell.

**Tap voice icon to initiate voice booking for quick rate searches**

**1**

Once voice booking search has been initiated, Siri will ask if you would like to book a room or browse through options.

If your answer is both, Siri will let you browse and help with any booking needs.

If your answer is only to browse, Siri will end the voice session and allow you to browse at peace. However, You can initiate Siri's help by tapping on the voice icon and Siri will then ask how she can be of service.

**2**

You can ask Siri such as:

“Find the cheapest deals on room”

“Book rooms for (insert dates)”

etc...
