Current Medications

START DATE	MEDICATION	CONDITION	INSTRUCTION	PRESCRIBED BY	PATIENTS REVIEW
03/03/19	Levetiracetam	4 Conditions	3 Times a day	Physician's Name	Edit Review

When users click on medication name it will expand down and list in detail regimen, conditions associated or any notes or warnings to be considered for intake. This can also be helpful for physicians/pharmacist/techs to quickly assess if this is a safe addition to users current list of medications and reason why it was prescribed.

Patient's Review:

If a user/patient has entered a reiew/comment this will be added in the drop down (with title Patient's Review headline), if no review has been added this will be hidden. (Patients will be able to edit/add more comment and the button will say edit reiew instead of add review)

04/03/19	Desvenlafaxine ^	4 Conditions	4 Times a week	Physician's Name	Add Review
04/13/19	Donepezil ^	4 Conditions	4 Times a week	Physician's Name	Add Review
04/13/19	Imatinib ^	4 Conditions	4 Times a week	Physician's Name	Add Review
04/13/19	Clozapine ^	4 Conditions	4 Times a week	Physician's Name	Add Review
04/13/19	Riomet ^	4 Conditions	3 Times a day	Physician's Name	Add Review
